Department of Ophthalmology

3rd German-Polish Winter Academy

Saturday, December 9th, 2023

Aula, Historical Main Building, Rostock University

German-English simultaneous translation

med.uni-rostock.de

one of the most atmospheric meetings
in ophthalmology in Germany

Co-Organization:

Prof. Dr. Anna Machalińska, Director, Dept. of
Ophthalmology, Pomeranian Medical University, Szczecin

Hanseatic and University City of Rostock, November 2023

Dear colleagues, dear employees of the non-medical service,

on Saturday, 9th of December 2023, the University Eye Hospital Rostock will host the „3rd German-Polish Winter Academy“ under the scientific direction of Professor Machalińska (Szczecin) and of me. We have initiated and established this „German-Polish Winter Academy“ with the goal to strengthen and deepen cooperation between the two neighboring countries.

To this end, we have invited high-ranking speakers this year and expect lectures on cornea & anterior segment, glaucoma & uveitis, retina, retina & tumors as well as traumatology & innovations. We have deliberately chosen shorter lectures in order to allow enough time for active interaction with the speakers.

We are especially pleased to invite you and our international and German guests to the renovated magnificent assembly hall of the historic main university building.

Please join us for one of the most atmospheric ophthalmology meetings of the year in Germany. We are looking very much forward to welcome you!

Prof. Dr. Dr. Th. Fuchsluger & the team of the Dept. of Ophthalmology, Rostock University Medical Center

Prof. Dr. Dr. T. Fuchsluger

Prof. Dr. A. Machalińska

Video and photography:

Photography will be taken at this event. By participating, you agree that photos can be used for Rostock University Hospital & Dept. of Ophthalmology public relations (e.g. intranet, social media such as facebook, Instagram, twitter, LinkedIn). If you disagree, please contact the photographer on site. Thank you!

Note on data protection: Your data will only be processed for the purpose of preparing and conducting this and future ophthalmological congresses. You can refuse the use of your data at any time with effect for the future. Please send an e-mail to: sekretariat.uak@med.uni-rostock.de.

Cancellations: In case of cancellation or non-attendance, the total amount is payable.
