Hanseatic City of Rostock, March 2024

Dear colleagues, dear employees of the non-medical service, esteemed patients,

today we would like to cordially invite you to the **6th Baltic Sea Eye Conference**. On Friday, April 19, 2024, the Eye Surgery Masterclass with Dry- & Wet-Lab will take place at the Dept. of Ophthalmology, downtown Rostock. You can register separately for this Masterclass. In the evening we will take a harbor cruise of the Overseas Harbor and the International Ferry Quay.

On Saturday, April 20, 2024, the Dept. of Ophthalmology, Rostock University Medical Center will organize the **International Rostock Beach Academy** in the Baltic Sea Resort of Warnemünde: The scientific conference program will take place in the Kurhaus at the promenade. For this purpose we have invited high-ranking speakers to give lectures on cornea, glaucoma, retina and ophthalmological innovations. After last years success we will once again organize the „**Young Investigator / Clinician-Scientist-Symposium**“ with the Baltic Sea Eye Award Ceremony, for which abstracts with work of all fields in ophthalmology can be freely submitted (deadline: 1/4/2024).

At Hotel Neptun, located opposite of the Kurhaus, we offer a very interesting **Program for Ophthalmological Assistant Staff & for Patients**.

Participants from more distant regions are advised to travel via Berlin Brandenburg International Airport (BER) or Berlin Central Station. Please board the double-decker InterCity at the Airport / Central Station with direct connection to Rostock Central Station and to the Baltic Sea Resort of Warnemünde. Furthermore, with participation of the Masterclass and arrival on Thursday we offer you the possibility up to three nights at the broadest Baltic Sea beach in Germany. We are looking very much forward to welcome you!

Prof. Dr. Dr. Th. Fuchsluger & the team of the Dept. of Ophthalmology, Rostock University Medical Center

Young Investigator / Clinician-Scientist-Symposium

with Baltic Sea Eye Award Ceremony for the best presentation

Deadline: 1/4/2024

Data of clinical or experimental studies (all fields in ophthalmology), 1 page abstract, usual format (DOG, ESCRS, EVER or ARVO).

Please announce abstract submission at:

sekretariat.uak@med.uni-rostock.de

Presenters will receive free registration to the event.
